**PUMA EXPLORATION AND EL NINO VENTURES
AMEND THE TERMS OF THE MURRAY BROOK PROPERTY AGREEMENT**

Rimouski, July 9, 2019 – Puma Exploration Inc. (the “**Company**” or “**Puma**”) announces that by mutual agreement, Puma and El Nino Ventures (“El Nino”) have agreed to modify the terms of the amended and restated Asset Purchase Agreement signed October 5, 2016, as amended thereafter. Pursuant to the amending agreement signed by Puma and El Nino, Puma now has until June 30, 2020, to proceed with the final \$1M cash consideration.

To keep the Purchase Agreement in good standing, Puma shall pay quarterly payments of \$30,000 to El Nino as an additional fee (“Additional Fees”). The first payment is due on or prior to July 30, 2019. The total, \$120,000, is payable even if Puma pays out the \$1,000,000 payment before June 30, 2020. In the event that Puma does not proceed with the final \$1,000,000 payment before June 30, 2020, a 0.67% royalty (NSR) will be granted to El Nino under the same terms as the existing royalty in the Purchase Agreement or, at the option of Puma and subject to prior approval of the TSX Venture Exchange, Puma will issue El Nino 1.5 million shares of Puma.

Puma agrees to do all necessary work to keep the Mining Claims in good standing through June 30, 2021, including generating and filing sufficient work credits on or before June 15, 2020.

“We are very pleased with the amended terms between the parties which provides more time to finalize the current discussions and negotiations in progress at Murray Brook to achieve our shared objective to complete the acquisition of the Murray Brook Deposit”, notes Marcel Robillard, President of Puma.

About the Murray Brook Project

The Murray Brook Project consists of three (3) distinct contiguous areas that covers 8,800 hectares and more than 18 kilometers of the favorable rocks that host the operating Caribou Mine (Trevali Mining Corp.), the Murray Brook Deposit and the past operating Restigouche Mine (Trevali Mining Corp.). From east to west, the Murray Brook Project comprises the Murray Brook East Property (4925), the Murray Brook Mining Lease (#252) and the Murray Brook West Property (7846).

The Murray Brook East and Murray Brook West properties have been subject to various degrees of exploration and share the same potential of increasing the mineral resources defined at the Murray Brook Deposit and several future priority targets have been defined on these properties.

About the Murray Brook Deposit

The Murray Brook Deposit (Mining Lease #252) covers an area of 484 hectares with a currently defined measured and indicated mineral resources of 5.28 million tonnes averaging 5.24% zinc, 1.80% lead, 0.46% copper, 68.9 g/t silver and 0.65 g/t gold. The core of this mineral resource occurs in the West Zone which is 200 meters wide, extending from surface to 300 meters vertical and the true thickness of the massive sulphide body varies from 75 meters to 100 meters. The East Zone (Copper-Gold) is 100 meters wide, also extending from surface to 300 vertical meters and is mainly mineralized with gold and copper. On February 20, 2017, a NI 43-101 report was accepted and filed on SEDAR.
