

EXPLORER & PROJECT GENERATOR IN ATLANTIC CANADA

Building value through
its proven DEAR
corporate strategy

June 6, 2025

FORWARD-LOOKING STATEMENT

This presentation may contain forward-looking statements such as use of words or phrases such as: is poised to, historical resource estimates, to be appointed, to create, up to, expected to cost, yet to be defined, etc. Such forward-looking statements involve a number of known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of Puma Exploration Inc. to be materially different from actual future results and achievements expressed or implied by such forward-looking statements.

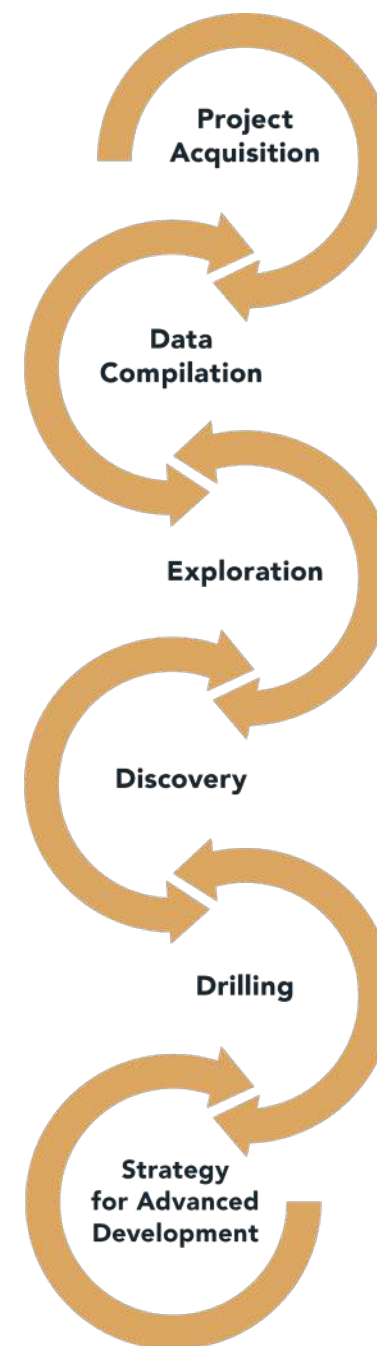

Readers are cautioned not to place undue reliance on these forward-looking statements which speak only as of the date the statements were made, except as required by law. Puma Exploration Inc. undertakes no responsibility to publicly update or revise any forward-looking statements. These risks and uncertainties include that actual results obtained by Puma in the future may differ materially from the historical results alluded to in this presentation by others, which historical results have not been fully verified by Puma. In addition, readers of this presentation should review the risks and uncertainties that are described in the quarterly and annual reports and in the documents submitted to the securities administration. Neither the Toronto Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this presentation.

Qualified Person

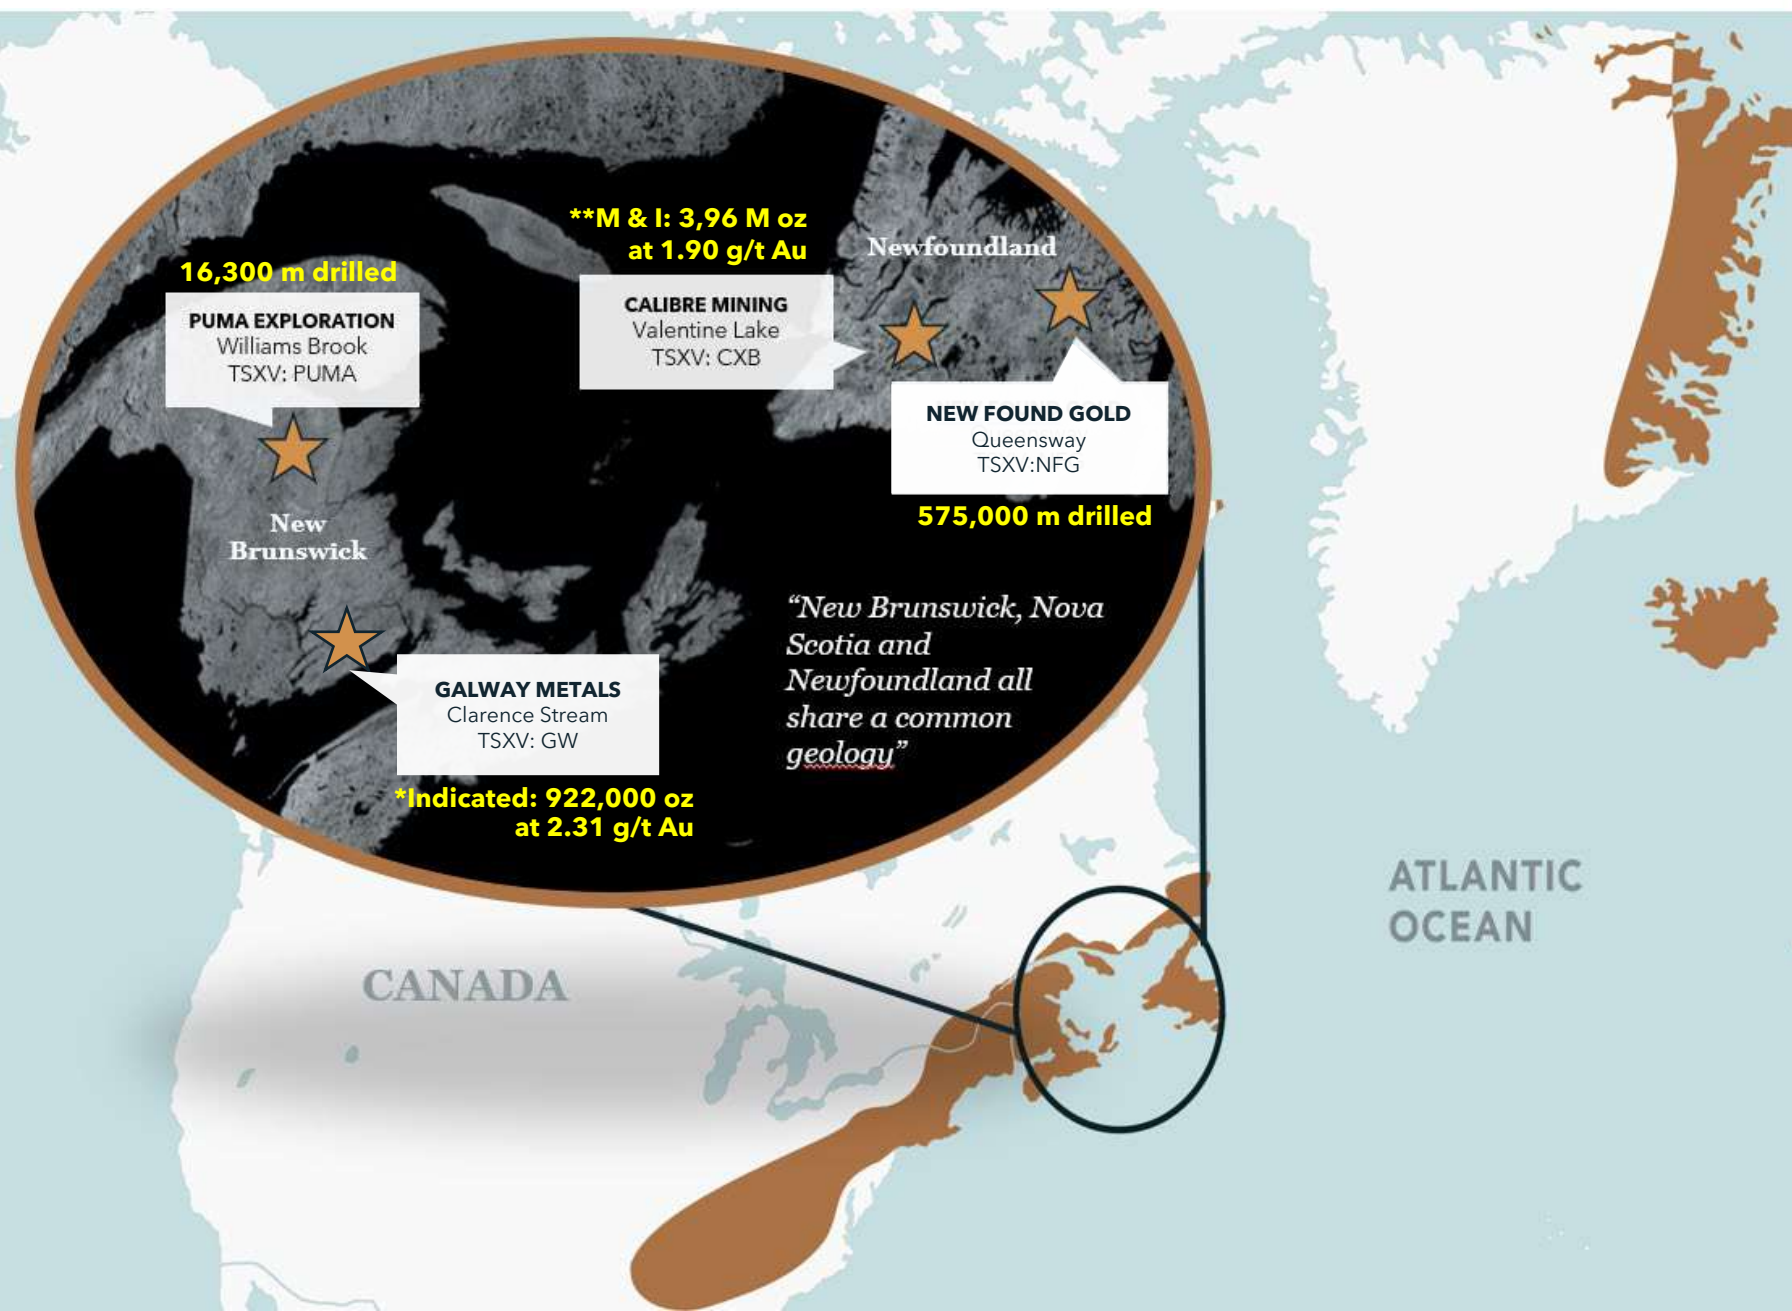

Unless stated otherwise herein, all scientific and technical data contained in this presentation has been reviewed, approved and verified by Dominique Gagné, P.Geo, VP Exploration and a qualified person as defined by Canadian National Instrument 43-101 standards.

WHY INVEST IN PUMA EXPLORATION ?

Unique and proven approach that generates value for shareholders

IDEAL PLAYGROUND - ATLANTIC CANADA

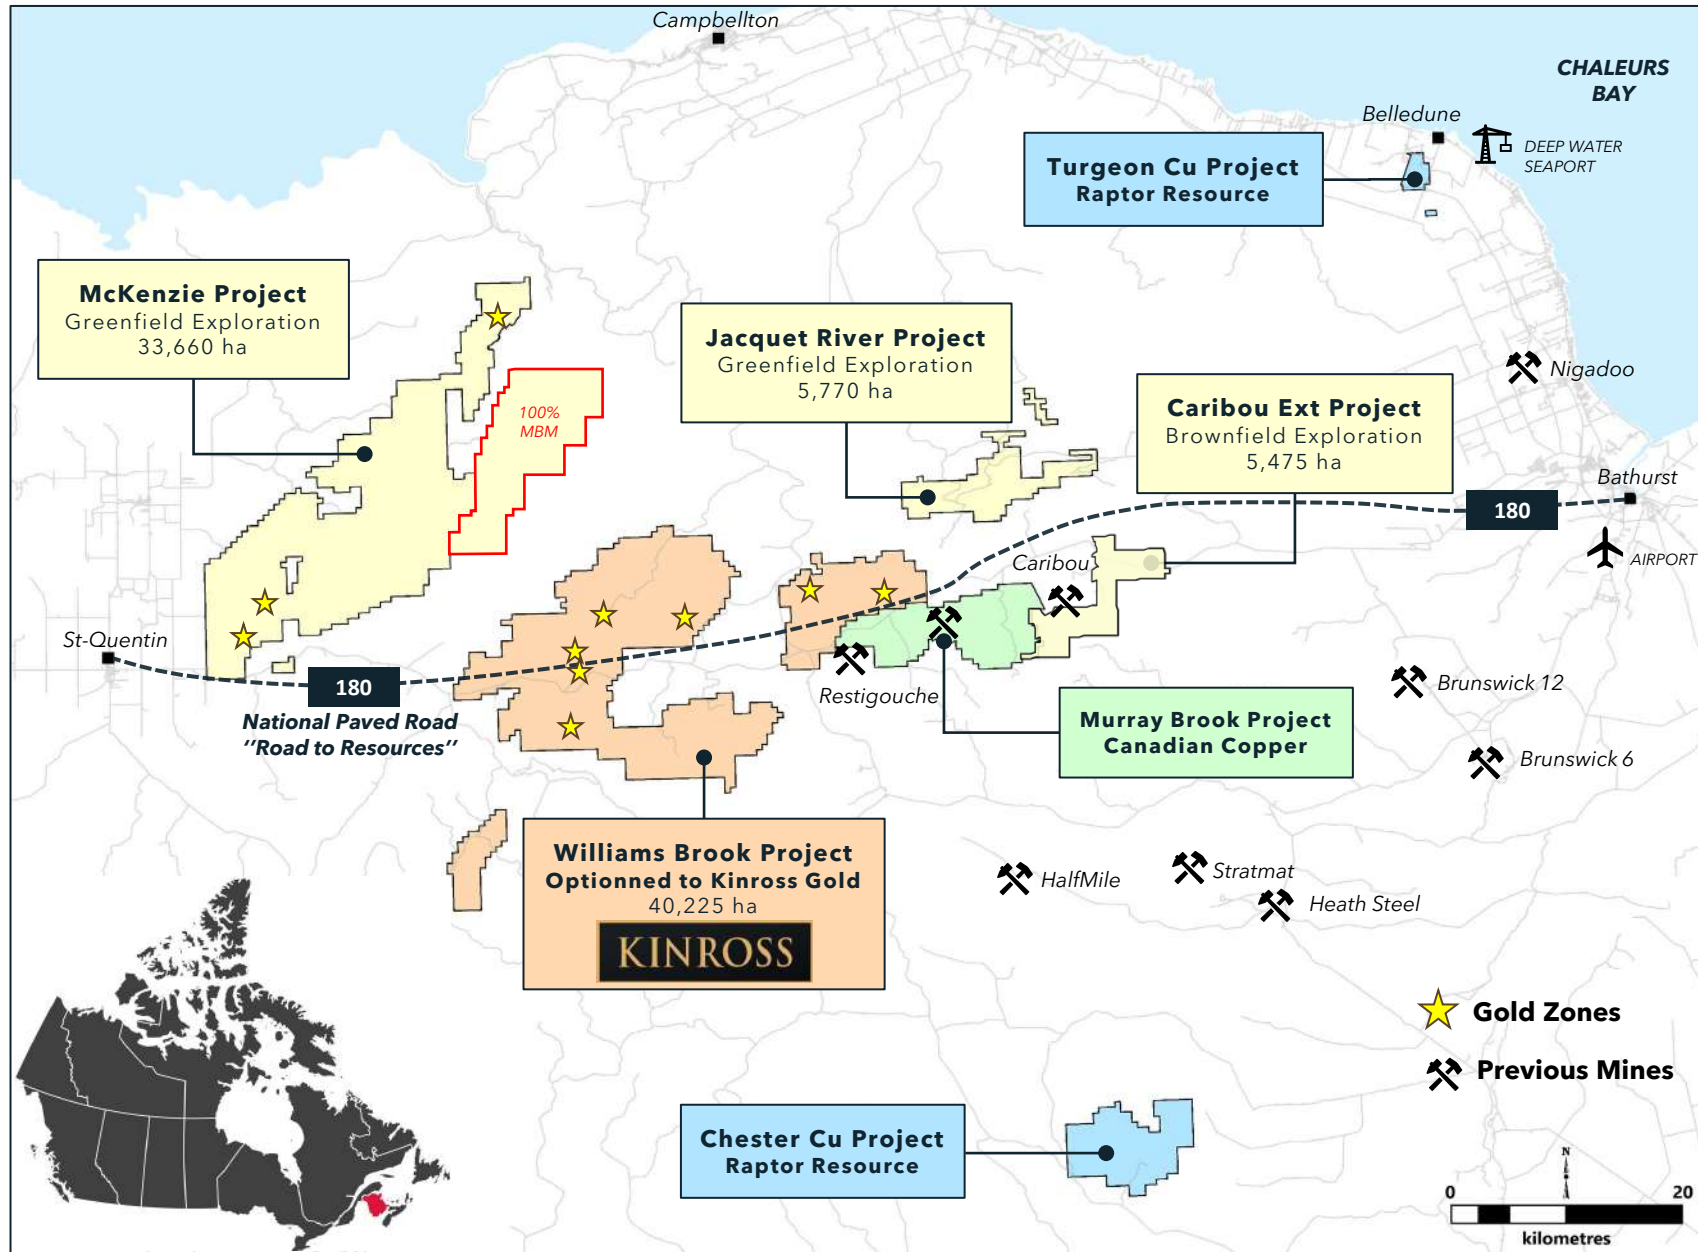

Fertile Gold Belt

- Gold orogenic system - Epizonal to mesozonal.
- Rock types - Interbedded turbidite sequence of sandstones, siltstones, and shales. Volcano-sedimentary rocks.
- Structural control - Compression/transpression environments.
- Age - Devonian to Ordovician
- Metal zonation - Potential for km scale depth extent

*Resource Statement, Clarence Stream Deposits, New Brunswick, Canada, by SLR Consulting (Canada) Ltd., March 31, 2022

** The mineral reserve estimates were prepared by Marc Schulte, P.Eng. (who is also an independent Qualified Person), have an effective date of November 30, 2022

LARGE LANDHOLDINGS IN NEW BRUNSWICK

Puma's DEAR strategy:

- **D**iscovery
- **E**xploration
- **A**cquisition
- **R**oyalties

Increase value while limiting share dilution

Focused on gold exploration but with exposure to base metals – significant **equity position** in Canadian Copper and Raptor Resources. Puma's subsidiary, Murray Brook Minerals ("MBM") focused on new Legacy Project (Ag/Cu).

PUMA's KEY ASSETS AND ACHIEVEMENTS

-  **Significant transaction with Kinross Gold in 2024**
\$16.75M Option over 5 years on Williams Brook Gold Project
-  **Recent acquisition of a new gold project - McKenzie Gold Project**
Very high-grade quartz veins with up to 1,315 g/t gold
-  **Access to steady pipeline of exploration projects**
Generating value and diversification for shareholders
-  **Proximity to infrastructure**
Close to highway, powerline, airport and deep-water port facilities.
-  **Highly skilled exploration team**
Experienced and focused on discovery
-  **Established mining community and facilities**
Near famous Bathurst Mining Camp

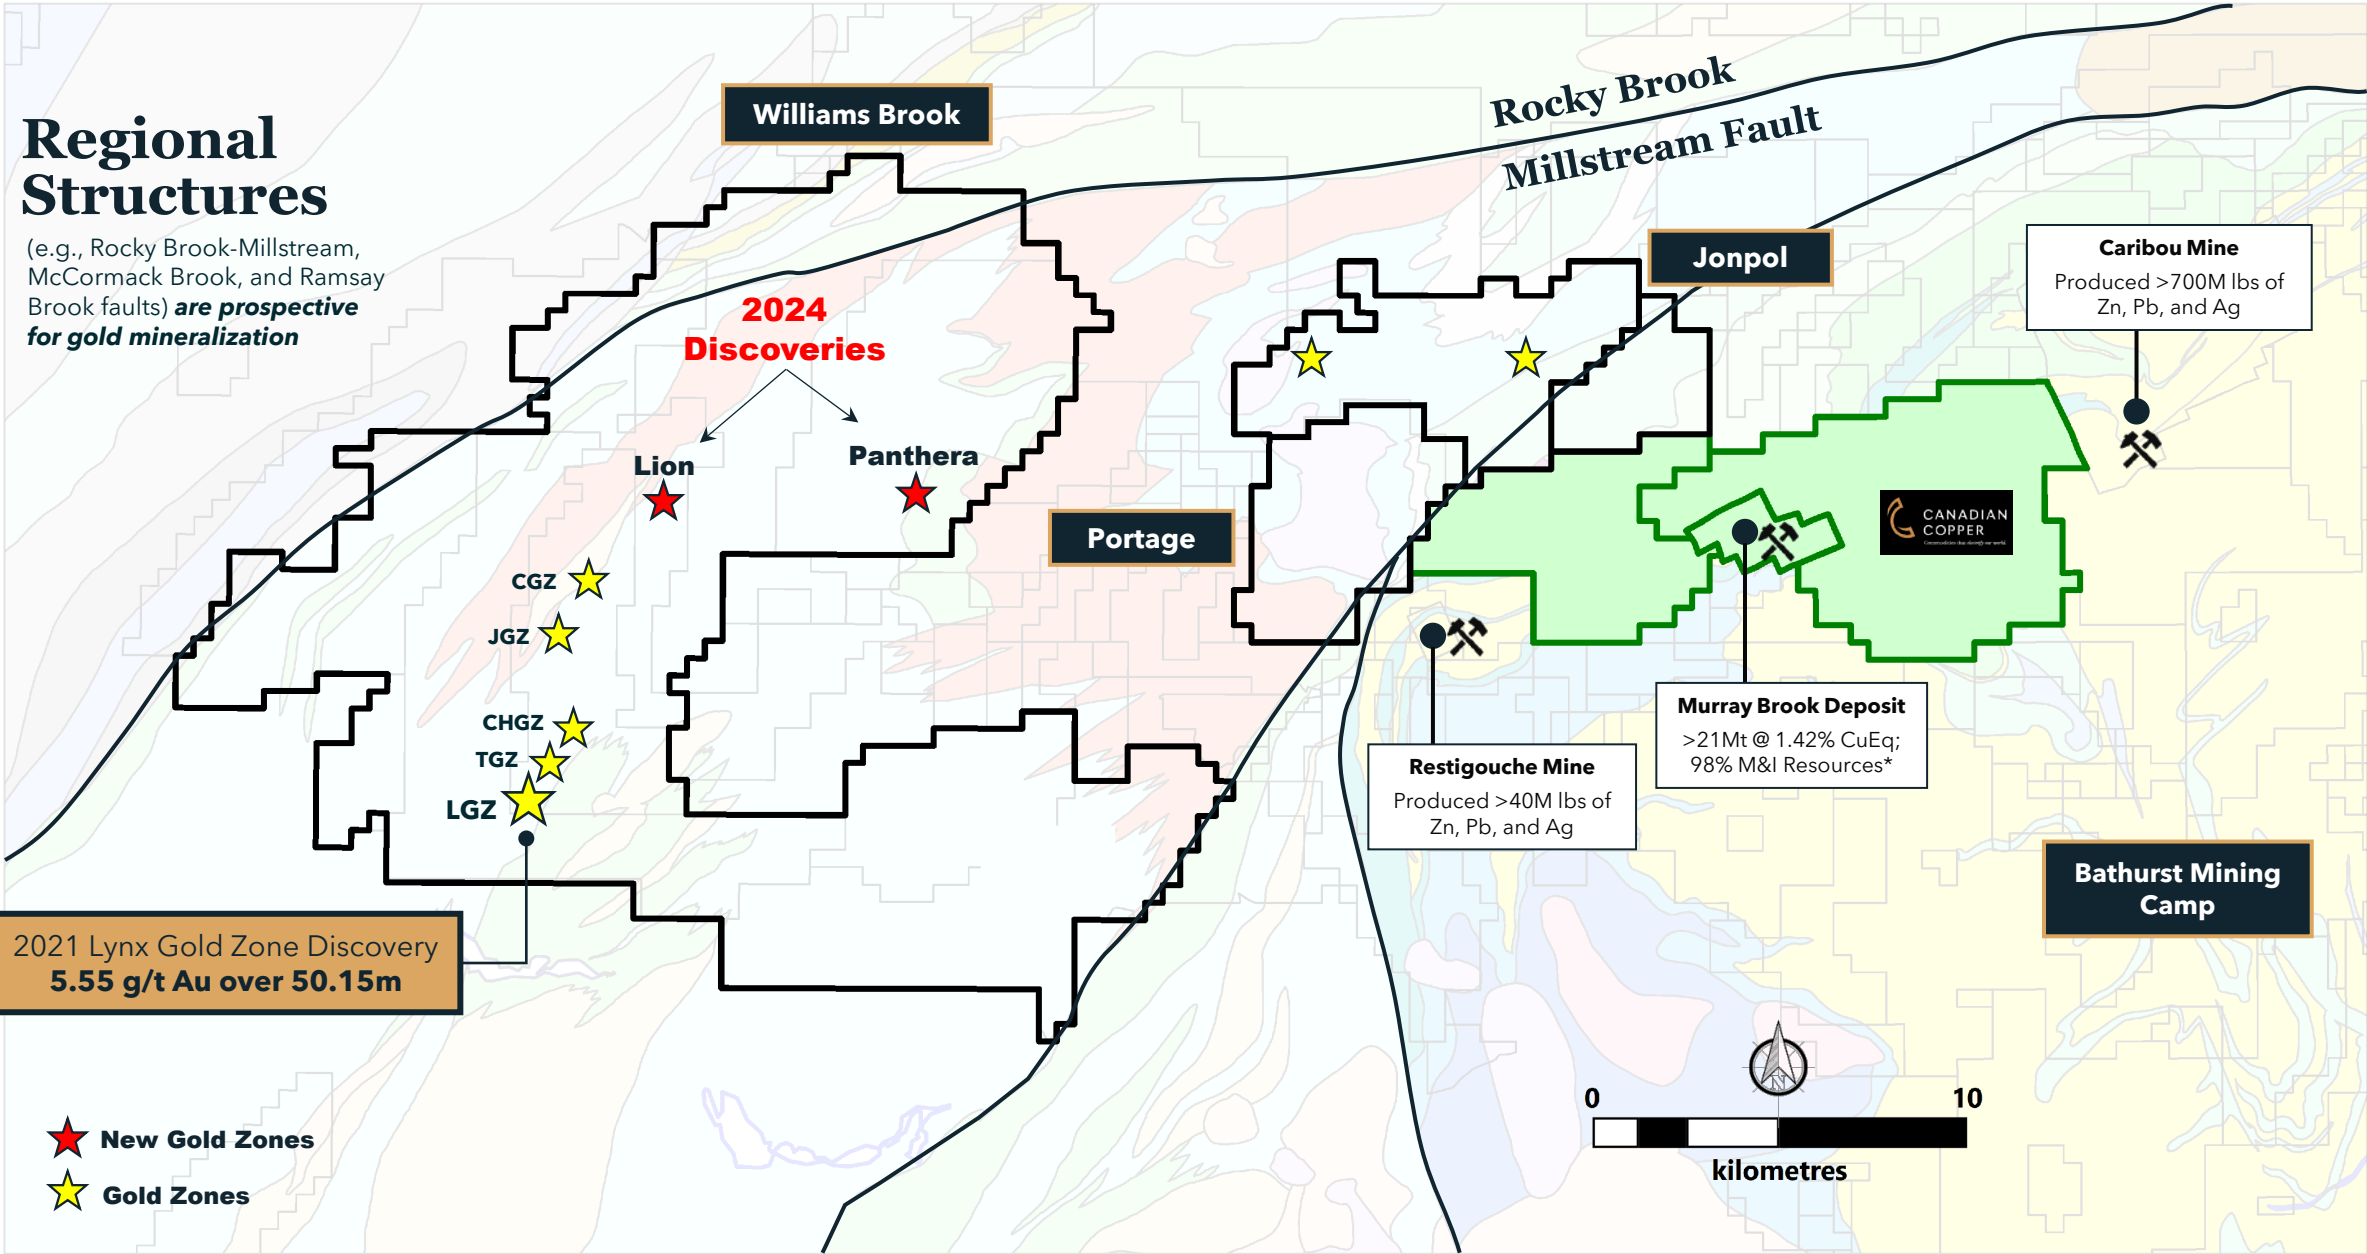

PROVEN LOW-COST EXPLORATION METHOD

Easy access to mineralization

- Little overburden, only 1m of loose material that is easily removed.
- Work with local forestry company.
- Gold mineralization in quartz veins at surface.
- Extensive surface sampling, mapping and data collection before drilling.

WILLIAMS BROOK – THE MAKING OF A GOLD CAMP

*CCI Press release 2023/10/03

THE LYNX GOLD ZONE

16,290 m drilled at Lynx

5.55 g/t Au over 50.15 m
2.49 g/t Au over 63.05 m
5.15 g/t Au over 23.15 m
2.77 g/t Au over 42.80 m
1.24 g/t Au over 98.05 m
3.97 g/t Au over 22.10 m
3.12 g/t Au over 35.35 m
1.05 g/t Au over 50.85m
1.10 g/t Au over 30.90m
3.30 g/t Au over 10.10 m

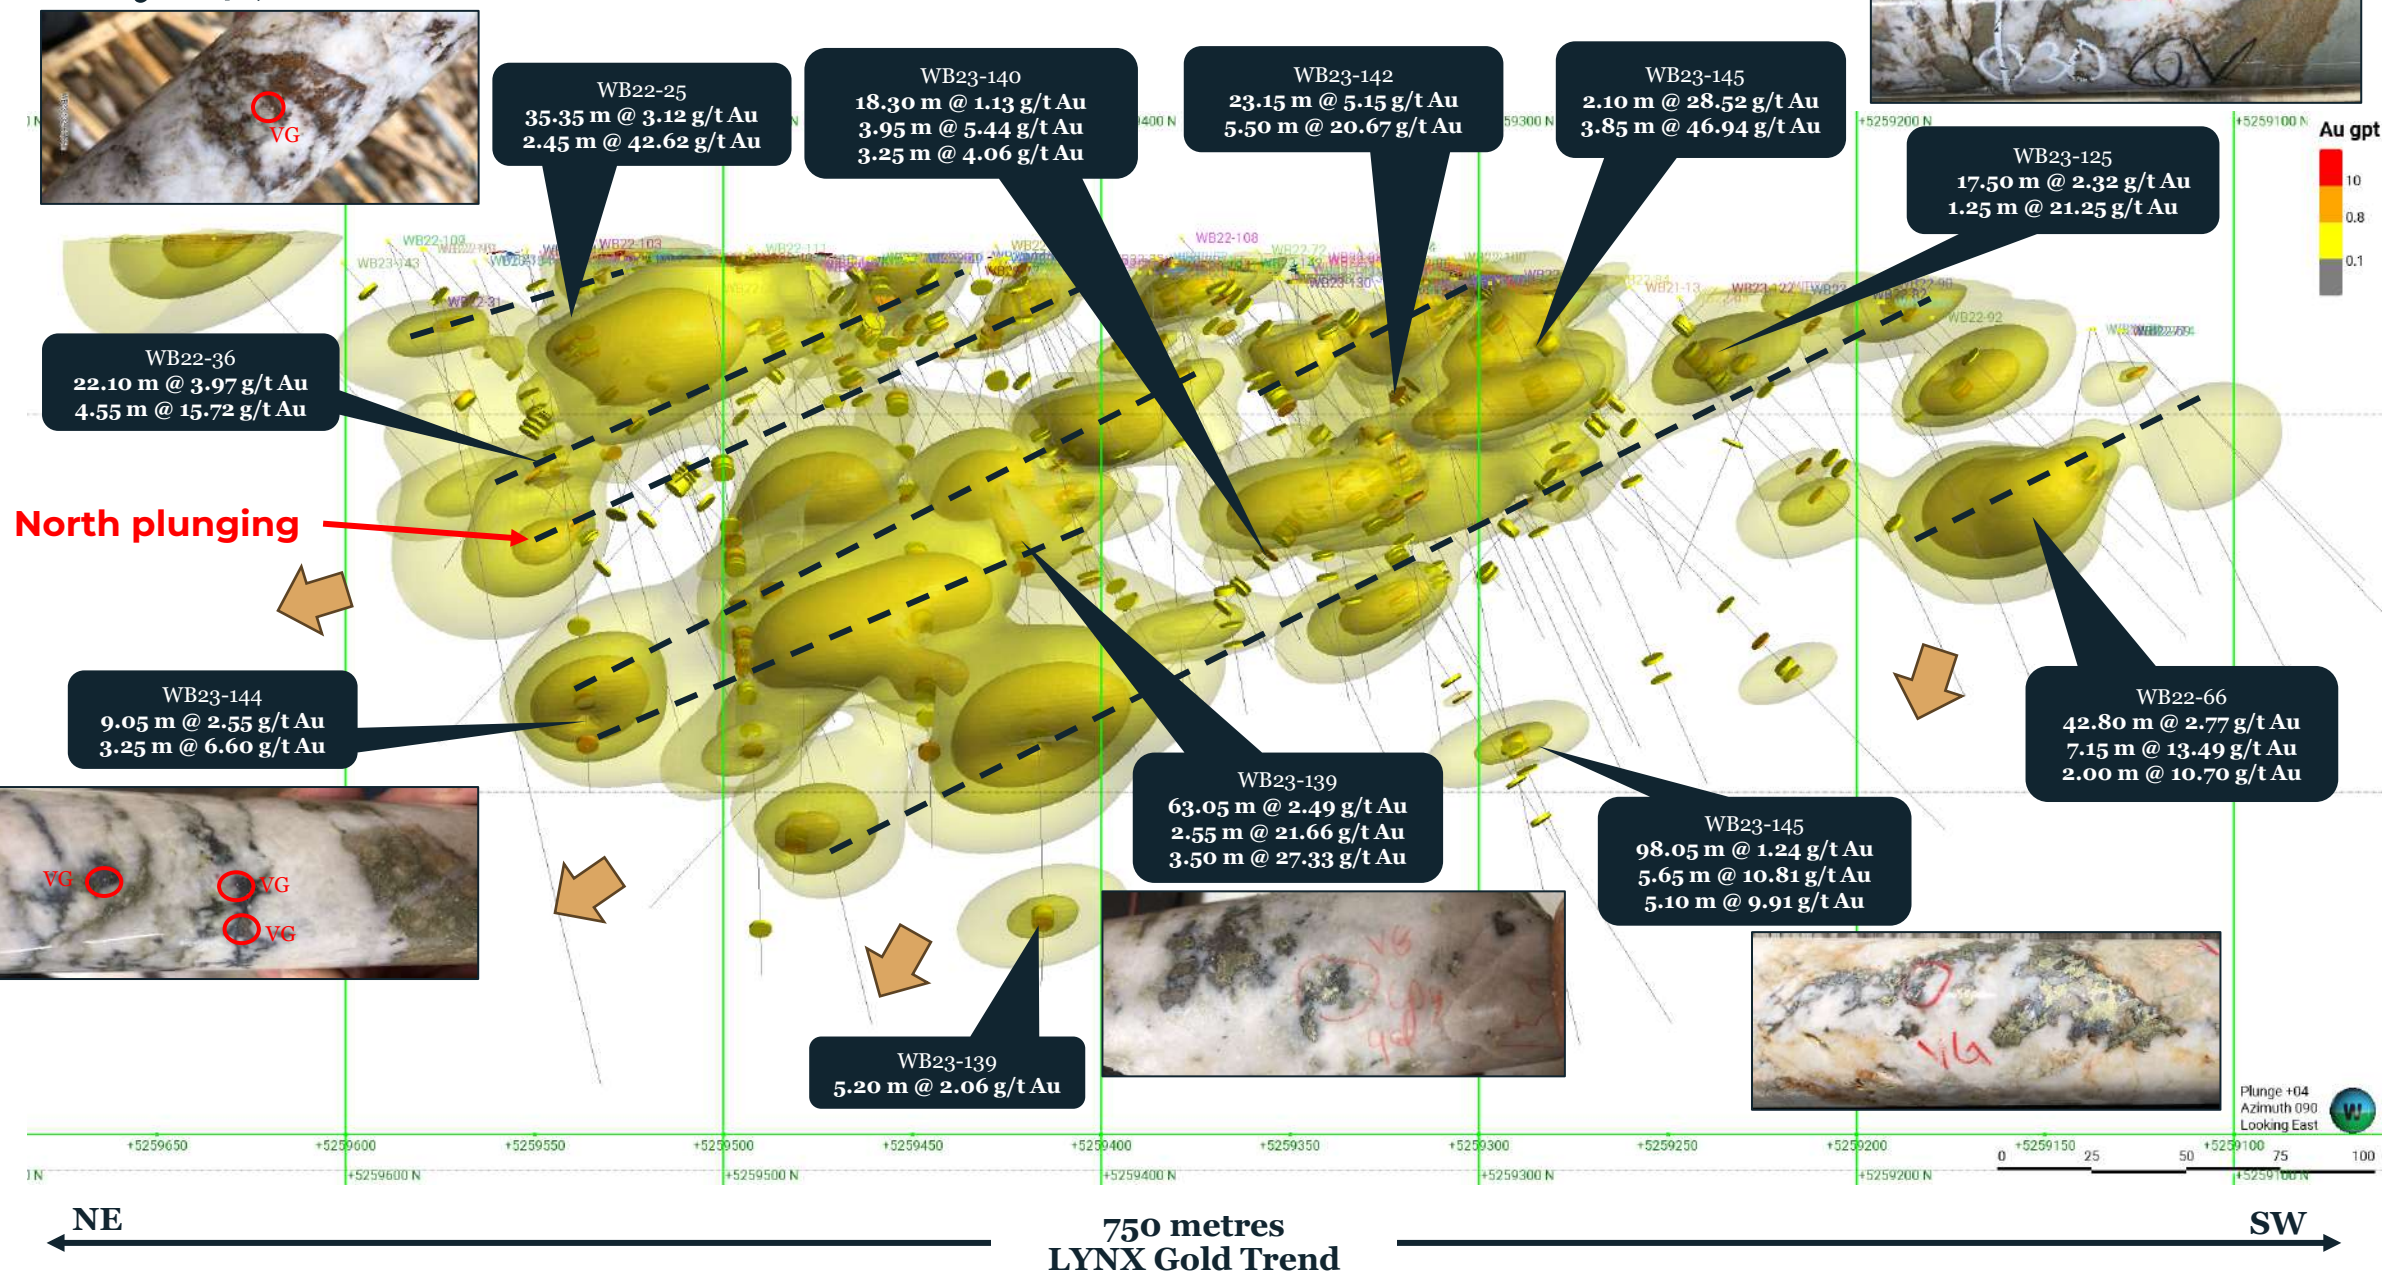

The largest gold discovery to date in Northern New Brunswick

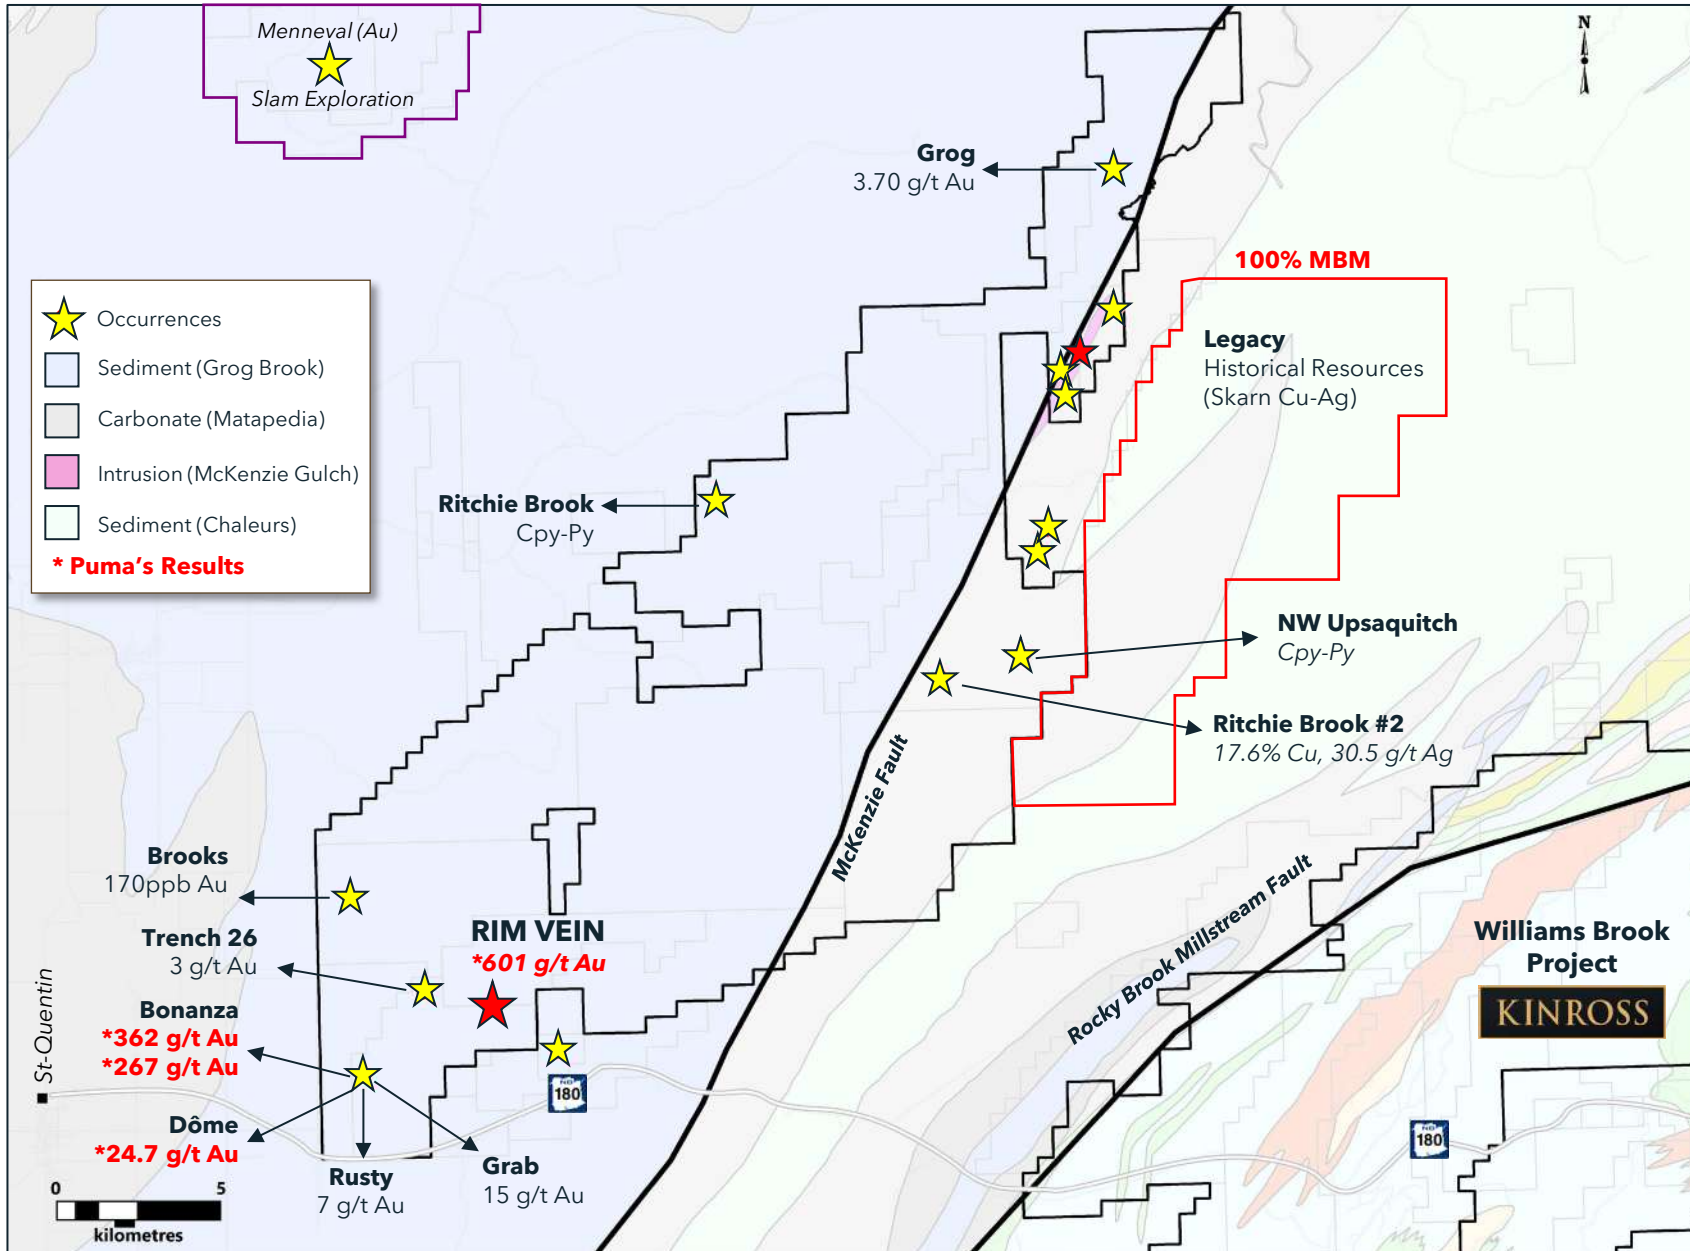

- High-grade gold mineralization in quartz veins starting at surface.
- High-grade gold intersections at 300 metres depth that remain open to depth.
- Impressive gold recovery by gravity alone.
- Lynx Gold Trend extends at least 4km along strike.

POTENTIAL FOR SIGNIFICANT EXPANSION AT LYNX

Only 17,000 m drilled to date

THE NEW MCKENZIE GOLD PROJECT

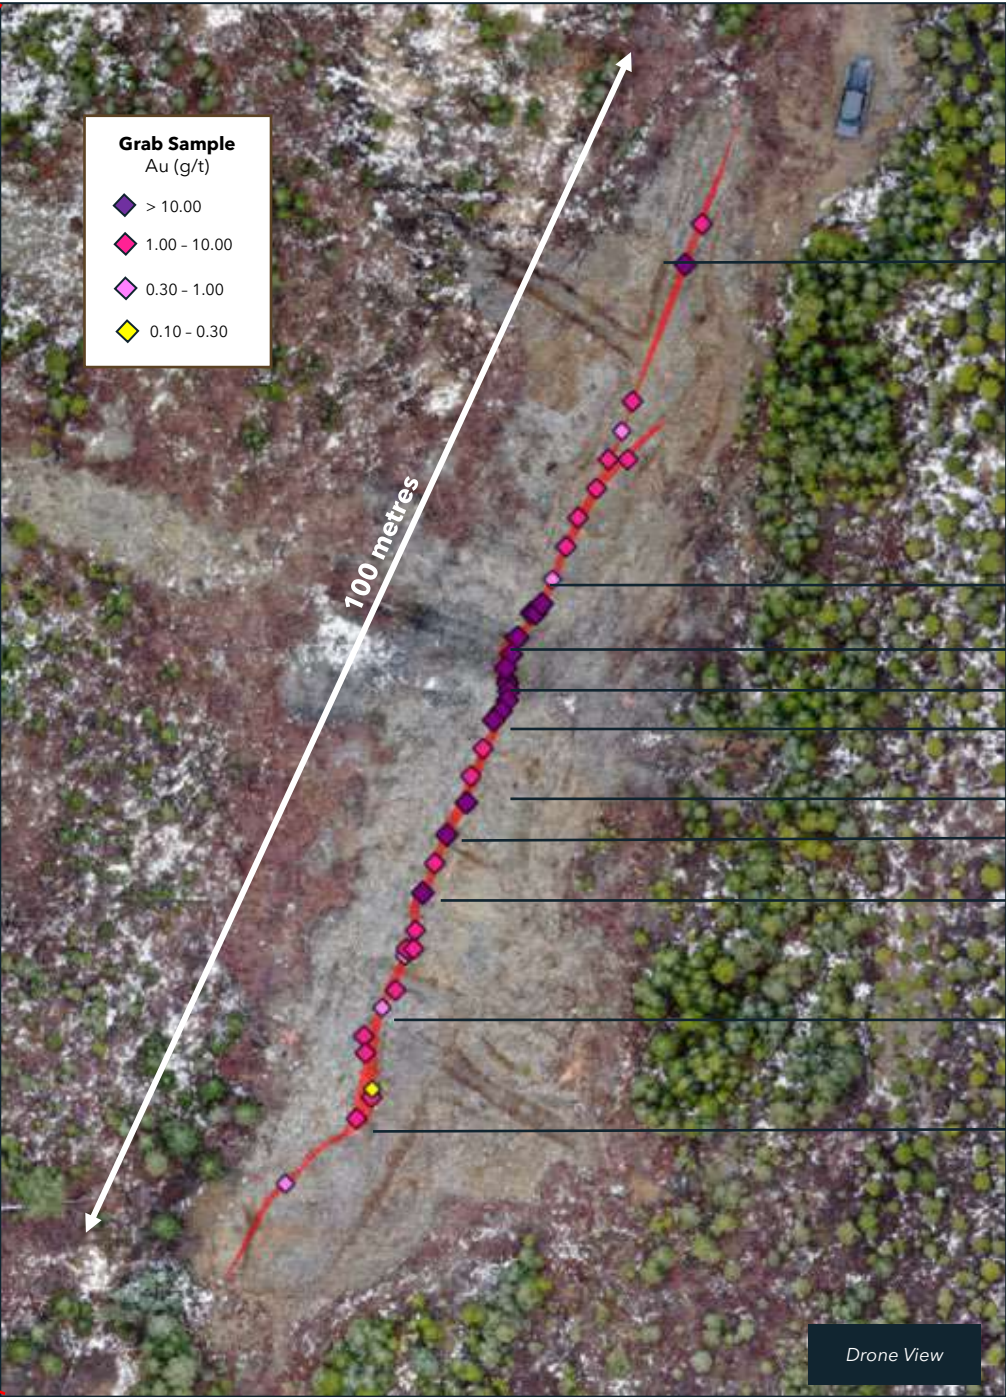

- 33,550 ha
- Many gold occurrences up to 1,315 g/t Au
- Large regional fault > 30km
- Many areas untested with a large potential for new discovery
- Possible upside with Ag-Cu skarn and porphyry potential
- 100% crown land
- Proximity to paved road & established infrastructure

MCKENZIE GOLD PROJECT

THE RIM HIGH-GRADE GOLD VEIN – 25 m of extremely high-grade gold grab samples*

* THE READER IS CAUTIONED THAT GRAB SAMPLES ARE SELECTIVE BY NATURE AND MAY NOT REPRESENT THE TRUE METAL CONTENT OF THE MINERALIZED ZONE

KINROSS

WHAT'S NEXT?

PLANNED 2025 EXPLORATION PROGRAM

Williams Brook Project
Optioned to Kinross

\$2M of Exploration

- 3,500 metres of drilling at the LGZ
- 3 drone magnetic geophysical surveys
- 95 days of trenching and stripping
- 90 days of mapping and prospecting
- 1,500-metre drilling program on the best targets identified during the summer

McKenzie Project
70% Puma

\$650K of Exploration

- 2,500 metres of drilling
- Trenching
- Prospecting

Regional Greenfield Exploration

\$100K of Exploration

- Surface exploration to identify new opportunities in the region

SHARE STRUCTURE

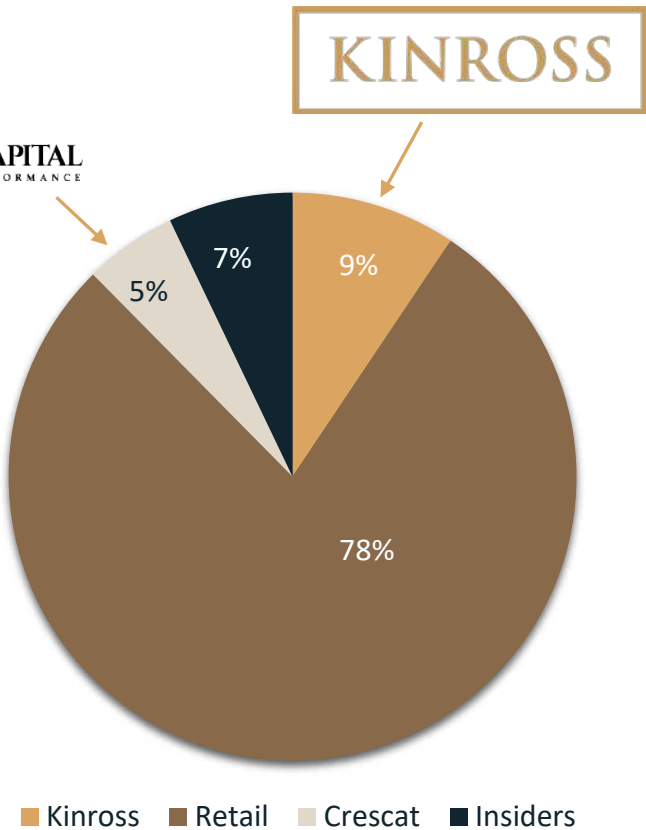

\$13 M Market Capitalization

Share Capitalization

Analyst coverage

THE PUMA TEAM

**Marcel Robillard, P.Geo. /
President & CEO, Director**

30 years of experience in junior exploration. Past President of Geominex, a geology consulting firm. Has led Puma since 2009.

**Martin Nicoletti, CPA /
Chief Financial Officer**

35 years of experience managing public companies, advising on capital market transactions, and providing financial stewardship.

**Dominique Gagné, P.Geo. /
VP Exploration**

Over 17 years of experience on grassroots to advanced exploration projects in Eastern Canada. Puma's technical team lead since 2013.

**Mia Boiridy /
Head of Investor Relations, Director**

30 years of experience in corporate management, with the last 12 years in the junior resource sector.

**Réjean Gosselin /
Director & Executive Chairman**

Seasoned mining executive with over 42 years experience leading junior exploration companies.

**Jacques Dion /
Director**

Over 30 years of experience in environmental assessment and waste management. Extensive experience partnering with First Nations communities.

**Michel Fontaine /
Director**

Entrepreneur with > 20 years working in the mining sector. Founder of Windfall Geotek (TSXV: WIN).

**Richard Thibault, P.Eng. /
Director**

Over 42 years experience in mining engineering, operations, management and consulting in North & South America and Southeast Asia.

Board Members & Technical Team

WHY INVEST IN PUMA?

-  **Large land packages in Northern New Brunswick**
Large gold systems at play, opportunity to scale up.
-  **2 high-grade gold projects - Williams Brook and McKenzie**
Limited drilling. Potential significant expansion at depth and surface.
-  **Proven low-cost exploration method**
90 days of surface exploration planned at Williams Brook in 2025 to make new discoveries.
-  **Significant transaction with Kinross Gold in 2024**
Mid-tier support for potential at Williams Brook - only 3 years after discovery hole and only 17,000 m of drilling.
-  **Puma's DEAR strategy**
Opportunity for investors to have exposure to other metals with little to no risk.
-  **The Team to deliver**
Experienced management and Board of Directors
